## **SPEAKE MARIN APPOINTS FRENCH GOLFER ADRIEN SADDIER AS ITS NEW BRAND AMBASSADOR**

Tuesday, 3 February 2026 – Geneva. Speake Marin, the independent watchmaking Maison combining Swiss craftsmanship excellence with the distinctive elegance of British heritage, is delighted to announce the appointment of French professional golfer Adrien Saddier as its new official brand ambassador.

### **A French talent at the top of his art.**

At 33 years old, Adrien Saddier embodies the rise of a new generation of French golfers on the international stage. Introduced to the golf at an early age, he swiftly established himself among Europe's leading amateurs before turning professional in 2013. After more than a decade competing at the highest level on the DP World Tour, a landmark 2025 season highlighted by a title and five top-ten finishes secured his place on the PGA Tour. In 2026, he consolidated his rise with remarkable performances, notably in Hawaii and California.

### **A natural alliance of precision, elegance and determination.**

Renowned for its timepieces defined by timeless design and technical mastery, Speake Marin finds in Adrien Saddier an ambassador who perfectly embodies the Maison's core values.

- Precision of movement, essential both to golf and haute horlogerie.
- Mastery of time, central to sporting performance and to the philosophy of the Maison.
- Elegance and singularity, signatures shared by the golfer and Speake Marin.

## Statement from the Maison

Adrien Saddier represents a new generation of athletes: exacting, authentic, and driven by a constant pursuit of excellence. His journey, shaped by discipline, passion, and resilience, resonates deeply with the DNA of Speake Marin. We are delighted to welcome him into our watchmaking family,” said Christelle Rosnoble, CEO & Owner of Speake Marin.

## Adrien Saddier's words

« Joining Speake Marin is an honour. I have great admiration for the Maison's unique character, its strong identity and its artisanal approach. Wearing my Ripples Skeleton or my Dual Time Pink on the course is a way of celebrating time with true singularity. »

## ABOUT SPEAKE MARIN

Speake Marin, Geneva-based independent brand, was founded in 2002 by an English watchmaker and was immediately received with enthusiasm by watch aficionados and collectors. In 2012, the company was acquired by Mme Christelle Rosnoblet, a French entrepreneur with a passion for art and watchmaking, who is now its CEO and President.

Mme Rosnoblet's arrival injects new energy into Speake Marin. Two pillars define the Maison's present and future: the in-house manufacture of its calibres and a stylistic renewal aligned with contemporary trends, while preserving the brand's signature codes since its founding.

In 2014, Mme Rosnoblet invested in the prestigious watchmaking atelier "Le Cercle des Horlogers" in La Chaux-de-Fonds, which is Speake Marin's internal workshop. Later on, Mme Rosnoblet becomes the majority shareholder. It is here that the Maison's timepieces are designed, produced, tested, decorated and assembled. Thanks to its independence, Speake Marin enjoys the utmost creative freedom which, combined with the expertise of highly qualified master watchmakers, allows it to create unique and inimitable watches featuring a bold and daring design.

The year 2024 marks another important chapter in the history of the Geneva-based brand: the introduction of the innovative SMA07 skeleton calibre. With an ultra-thin thickness of just 3.25 mm, this is an absolute first. A state-of-the-art calibre with an integrated micro-rotor and a 36,000 vph balance wheel that drives the Ripples Skeleton.

To date, Speake Marin has developed 12 in-house calibres and has an annual production of around 400 timepieces.
